Subject: Follow up: May 30 Nutrient Forum
Date: Monday, June 04, 2018 2:26:09 PM

Good afternoon,

We had a great Forum meeting last week, thank you to everyone who attended in person and via webex. Final versions of the presentations have been uploaded to the project webpage. Here are some links to make it easy for you to pull up the documents:

- [Christopher Kremb's presentation on WQ trends and indicators of eutrophication](#)
- [Ben Cope's presentation on the use of the Salish Sea model to inform regulatory decisions](#)
- [Teizeen Mohamedali's presentation on nutrient loading in the Salish Sea model](#)
- [Bryson Finch's presentation on the Dissolved Oxygen Criteria for Puget Sound](#)
- [Kari Stiles' presentation on Implementation Strategies for Puget Sound recovery planning](#)
- [Dustin Bilhimer's presentation on the relationship between the Nutrient Forum and the MWQ Implementation Strategy](#)

Also the handouts:

- [Dissolved Oxygen Criteria guidance](#)
- [Responses to the nutrient implementation issues questionnaire](#)
- [May 30 Agenda](#)

I am writing up the notes from the meeting to document the questions and responses from the day's discussions. I will post those on the web and notify all of you when those are ready (in about a week).

We have two dates for the next two Forums: July 16th and August 22nd; both meetings will be held at the Ecology building in Lacey for those who want to attend in person and webex connections will also be available to minimize the travel burden. I will be sending out more information on these meetings towards the end of the June via the Puget Sound DO listserv.

If you have any feedback about last week's meeting please send me an email and let me know how it went (i.e. how was the audio online, were your questions not answered or do you have more, was registering for the meeting helpful or confusing, etc.). And if you haven't yet done so, please sign up for the DO listserv ([sign up here](#)) so you'll receive project/meeting notifications and information.

Hope you all have a great week,

Dustin Bilhimer, PSNSRP Project Manager
